

**Program
of XVII International Conference
«Multimodal Transports of Dangerous Goods.
Fuel of the Future. Way to Sustainable Development»**

Conference date: 30 of May, 2023

Venue:

**Hotel “New Peterhof”
34, St. Peterburgsky Av.
198510, Saint-Petersburg, Peterhof, Russia**

09.00-09.30	Registration of conference participants
09.30-09.45	Beginning of conference work. Opening session of conference. Opening speech of IDGCA President G.Y. Moshkov. Welcoming address of City Administration representative.
09.45-10.00	Welcome speech of government authority officials Representative of Ministry of Commerce and Industry
10.00-10.20	UN concept in the field of green technologies as the key focus of sustainable development strategy Representatives of international organizations
10.20-10.40	What are alternate fuels? Liquefied natural gas (LNG), hydrogen, methanol, ammonia. Mikhail Vedernikov, Ph.D. in Engineering, Assistant Professor, IDGCA expert
10.40-11.00	Governmental regulation and control of transport and handling of hydrocarbons and liquefied gases in sea ports Representative of Rostransnadzor (Federal Transportation Inspection Service)
11.00-11.20	Coffee break
11.20-11.40	LNG marine gas terminals. Ensuring of safety in LNG terminals Representative of OOO “Gazprom SPG Portovaya”
11.40-12.00	About participation of the Russian Federation in the work of International Organization for Standardization (ISO) and International Electrotechnical Commission (IEC) Anastasia Deryabina, Head of the ISO Cooperation Division of Russian Institute for Standardization, GOST R Administrator
12.00-12.20	Hydrogen production. Prospects for the development of hydrogen technologies. Transportation of hydrogen. Requirements to the handling equipment Representative of State Atomic Energy Corporation “Rosatom”
12.20-12.40	Production and transportation of ammonia: Issues of regulatory control in the field of ammonia transport Representative AO “OHK (United Chemical Company) “Uralchem”
12.40-13.00	New prospective equipment for carriage and storage of cryogenic products Representative of OOO “Uralkryomash”
13.00-13.50	Dinner
13.50-14.10	Carriage of liquefied gases and pressurized gases by road transport. Requirements of European Agreement concerning the International Carriage of Dangerous Goods by Road Igor Pugaev, IDGCA expert
14.10-14.30	International conventions, codes and guides governing the transport of bulk goods Vladimir Gadalov, representative of classification society

14.30-14.50	Ensuring of industrial safety in production and storage of alternate fuels Irina Tikhomirova, Rostekhnadzor expert
14.50-15.10	Carriage of gases in rail tank cars Igor Fyodorov, IDGCA expert
15.10-15.30	Practical application of international and national standards and its advantages Yulia Tufanova, Director of International Cooperation Department of Russian Institute for Standardization
15.30-15.50	Use of advanced composite materials for manufacture of portable tanks intended for transport of corrosive liquids and cryogenic products. Introduction of amendments in the UN Model Regulations on the Transport of Dangerous Goods and International Maritime Dangerous Goods Code. Ivan Sergeichev, Interim Director, Center for Materials Technologies, Professor, Skolkovo Institute of Science and Technology
15.50-16.10	Standards in the field of cryogenic technologies. Training of specialists in the International Staff Training Center Vladimir Tsikhiseli, IDGCA expert
16.10-16.30	Transportation and storage of alternate fuels in portable tanks and tank-containers. Multimodal transports. Preparation of multimodal declaration for carriage of gases Mikhail Ognev, IDGCA Director General
16.30-17.20	Round-table. Summarizing of the conference
17.50-18.40	Supper
18.40-21.00	Cultural programme. Visit to islands in Olga's Pond

Note: Amendments may be introduced in this program.
